Protecting Yourself from Enrollment Fraud

Medicare's annual election period is about here, and it'll be important to understand it so you can protect yourself. Also known as Medicare open enrollment, this is the annual period during which people on can reevaluate their prescription drug plan or Medicare Advantage coverages and make changes.

During open enrollment, a beneficiary can:

- Switch Medicare Advantage plans.
- Switch from Medicare Advantage to Original Medicare or from Original Medicare to Medicare Advantage.
- Join a Medicare Part D prescription drug plan, switch from one Part D plan to another or drop Medicare Part D coverage entirely.

Open enrollment does not apply to Medigap coverage, however.

The enrollment period runs from October 15 to December 7 each year, and changes you make during that time are effective January 1.

Watch out for people who:

- Ask for your Medicare number, Social Security number, and/or bank information just to provide you with information. Someone can use this personal information to enroll you in a plan without your permission. Plans cannot request this personal information at an educational event

and cannot call you to ask for a payment over the phone — they must send a bill.

- Pressure you with time limits to enroll in their plan. You can use the entire Open Enrollment Period to make your decision. You will not receive extra benefits for signing up early for a plan.
- Say they represent Medicare. Plans are never allowed to suggest they represent or are preferred by Medicare or any other government agency.
- Offer you gifts to enroll in their plan. Gifts must be given to everyone regardless of their enrollment and cannot be worth more than \$15.
- Threaten you with the loss of your Medicare benefits unless you sign up for their plan.

Tips for avoiding potential enrollment fraud:

1. Confirm what a plan agent tells you before making a final decision about a plan.
2. Ask for everything in writing.
3. Call your doctors to make sure they are in-network for the plan you want to join.
4. Never provide your Medicare information to anyone but your trusted health care providers.

Contact your SHIP to make sure you understand a plan's costs and benefits before enrolling.
